## DISCUSSIONS

Discussions are a great way to get to know your classmates. For full credit, you must post an initial post and then respond to at least two classmates' posts. Complete discussion forum entries consist of at least four thoughtful sentences that pertain to the discussion topic.

It is critical in the entertainment industry that you treat others with respect. You may not agree with the views and opinions expressed by your peers, but you do not have the right to be disrespectful. Personal attacks, profanity, vulgarity and comments that are not productive additions to the conversation will not be tolerated.

## QUIZZES

Some visiting industry professionals have prepared quizzes on material from their section. These will be delivered in Canvas, and will be timed with a strict due date/time.

## MIDTERM/FINAL

You will have a multiple choice Midterm and Final in this class. Both will be open-note, timed, and will have a strict due date of 11:59 pm on their due date/time. The goal of these exams is for you to keep up with the class material because it builds on itself. They are a learning tool!

## LATE WORK

In this program we are helping you prepare for the entertainment industry which is notoriously unforgiving about absences and late work. However, we understand that bad things happen. In those cases, **please email us through the Canvas inbox AHEAD OF TIME if possible or afterwards if necessary**, explaining your circumstances. Being a good communicator is an extremely important skill in this industry. **You can submit late assignments AS LONG AS YOU EMAIL US AHEAD OF TIME.**

## OUR COMMUNICATION COMMITMENT

We want to make sure that you receive the support and information you need in a timely fashion so you can be successful in this class. Therefore, we will make the following communication commitment:

If you email us through the Canvas inbox, we will make every effort to respond within 48 hours.

## STUDENT CONDUCT

The Motion Picture & Television Production Crafts program is designed to give you hands-on training from Entertainment Industry professionals. We have developed these guidelines, rules, policies and procedures to insure your safety, and to promote the attitudes and behaviors necessary to becoming a successful entry-level worker in the entertainment industry. Consider this a baseline of behavior. Many of these policies are matters of common sense, general decorum and basic professionalism; others are more specific to the entertainment industry. We may amend this list in the future as we see fit, and the industry professionals may add other considerations specific to their crafts.
